

INDUSTRIAL

FLUID MANAGEMENT

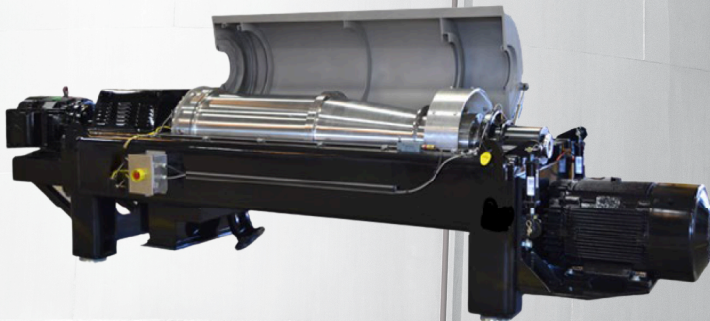

Industrial Fluid Management (IFM) delivers comprehensive solutions for industrial fluid handling and cleaning operations. Our offerings include equipment rentals, custom fabrication, parts, materials and consumables, and repair and maintenance (R&M).

Our team supports operations in the field and in-shop with preventative maintenance programs, equipment diagnostics and repair, and specialized support for dewatering and filtration systems.

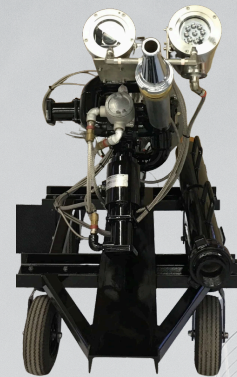

Tank Cleaning Robots

2 & 3 Phase Centrifuges

Manway Cannons

Shaker Systems

5K Pressure Washers

Filter Pods
